BASIC INFORMATION

I am a self-taught web developer with a strong eye for innovative design and a keen understanding of techniques geared toward optimum user experience. Due to my swift learn-ability and my technical skills, I was a natural candidate for many college projects, both internal and external. Also, I'm a team player and I like to add value to my teammates whenever possible. I have a friendly nature and get along with everyone. I believe in delivering business value to my clients as fast as possible.

SKILLS

- Excellent verbal/written communication and organizational skills.
- Exceptional numerical skills, problem solving, time management and team player.
- Decision maker, critical thinker, ability to multi-task.
- Friendly, reliable and ability to prioritize.
- Handling confidential and time sensitive documentation.
- Enthusiastic to grab opportunity to work.
- General: MS Office in depth knowledge
